

If a scholarship is granted, a Financial Agreement embodying it is written for the first semester. If the student's record of progress in academic and community programs is maintained at or progresses to a high level, and the student is under the same financial need, the same Scholarship Grant may be made for the second semester. Notification of continuance of the grant is made three weeks before the end of the first semester.

WORK SCHOLARSHIPS

Desiring to make it possible for qualified students who have very little money to continue their college education, the Board of Fellows, during the past year, established twelve Work Scholarships. These scholarships cover approximately \$1000 of the total fee for room, board, and tuition and require of the student thirty hours of work per week. They have been set up in the following areas: farm (5), cleaning (3), maintenance (2), and office (2).

The applicant for a Work Scholarship is required to follow the same procedure as described under Scholarship Grants, adding to the statement of his family's financial resources a letter describing his work experience and listing references.

Again, the basis for selection is the application and the scholarship rating received from the Admissions Committee.

If the scholarship is granted, an agreement embodying it will be written for the first semester. If the student maintains his work assignments and academic studies at a high level, the same scholarship will be granted for the second semester.

The exceptional student may apply for and receive both the Scholarship Grant and the Work Scholarship.

DEREK BOVINGDON MEMORIAL FUND

Loans for tuition can be made to a few students, already in residence, from the Derek Bovingdon Memorial Fund, set up in memory of a former student.

PAYMENT OF FEES

The application fee must accompany application for admission to the College and is not returnable. Applicants who are accepted by the College should make the contingency deposit of \$25 within ten days of notification of acceptance, since admission does not become effective until this deposit is received. It is not refundable if the new student fails to enter. While a student is in attendance it must be maintained at \$25; but any unused portion of it is refunded the September after graduation or withdrawal. (Applicable to all fee and scholarship agreements including full fee, Scholarship Grants, Work Scholarship, and Derek Bovingdon Memorial Loan.)

The College cannot guarantee that a place will be reserved for any student after August 1 for the Fall Semester, or after December 31 for the Spring Semester, unless \$200 has been deposited with the College by these dates. This deposit is not refundable except at Faculty discretion if the student withdraws after these dates, since a withdrawal from a reserved place at the last moment may create
